FIRE ALARM TELEGRAPH.

Superintendent, JOHN F. KENNARD. Salary, \$2,300, with use of horse and vehicle. He has also the care of all the public bells and clocks. Office, City Hall. [Appointed by the Fire Com'rs.]

Operators, Cyrus A. George, Granville S. Mendell, Charles M. Chaplin, Uziel Putnam. Salary, \$3.75 per day. *Repairers,* George S. Thom, Adam McAfee, Wm. H. Godfrey. Salary, \$3.75 per day.

A constant watch is kept at the office, City Hall night and day, by the operators. An accurate account is kept of the time of giving each alarm, and of the station from which it originates. The police officers, and one other person resident near each station, have keys to the Boxes. Alarms are usually given in about half a minute from the time the Box is operated.

The ringing of the bells and the tapping of the Boxes, each denotes the number of the Station from which the alarm originated: thus,—one blow, a pause, three blows, another pause, and two blows (1—3—2) indicates that the alarm came from Box No. 132. Second alarms are sounded by striking ten blows followed by the box number. Third alarms are sounded by striking twelve blows twice; if the entire department is wanted, alarms are sounded by striking twelve blows three times; Return Signal, notice will be given on the bells and gongs, one blow four times, thus: (1—1—1—1,) hearing which the several apparatus on the way to the fire will return to their quarters; (2—2) indicates no School; eleven blows indicates Police call; 198 indicates a call from Chelsea for assistance.

The Meridian Bells.

Fifty-three bells, Sixty large and Forty small gongs, Sixty tappers, and Fifteen vibrators, at various locations on Churches, School-houses, Engine houses, and Railroad depots, are struck from the Fire-Alarm Office precisely at noon every day. Correct time is furnished by telegraph from Cambridge Observatory, so that absolute accuracy is secured.

ENGINEERS

— AND —

MACHINISTS,

AND DEALERS IN

NEW AND SECOND-HAND

MACHINERY

IN GENERAL.

We have several specialties as mentioned below. In these our aim has been: first, practical excellence and utility, and second, the minimum of first cost and running expense. Our Test Turbine

WATER WHEELS

are not excelled in these respects. Our experience in this line covers twenty-six years, commencing with the Rider Wheel.

ELEVATORS

for general hoisting purposes, furnished at lower cost than any other first-class Elevators of equal utility. They are very extensively used. Many of the best warehouses in Boston, and many factories in New England have them. Carriage Elevators, Hand Elevators, Hoisting Wheels and Hatch Covers, both hand and automatic. Our Patent Wrought Iron Safety

STEAM BOILERS

are very superior, and are highly commended; they are of moderate cost, very economical in fuel and labor, and cannot explode from many

of the causes that lead to the destruction of ordinary Boilers. They have large steam and water space, get up steam rapidly, and are very thoroughly made.

THE HOADLEY PORTABLE ENGINES.

Having purchased at Auction the bulk of the J. C. Hoadley Co.'s stock, and having made arrangements with Mr. Hoadley for his co-operation, and the use of his patterns, we are prepared to furnish these *wonderfully efficient and economical variable cut off Portable Engines*, from stock or to order, embracing all his late improvements, at greatly reduced prices. These Engines are so favorably and widely known as to need no further commendation here. Their standard excellence will be fully maintained.

CRUSHING MACHINES

for rapid reduction of ores, rock and any friable material; simple in construction and remarkably rapid in their operation. They reduce the material to size suitable to feed into millstones or other pulverizing Mills.

PULVERIZING MACHINES

for ores, Dry Paints, Quartz, Clays (the stones in which they reduce to powder), Plaster, Soda, Spices, Grains, Dried Roots, Woods, Herbs, Etc., Etc. Better results are produced and at less cost than by Millstones, Rolls, Stamps, Etc. Milling executed by these machines in large and small quantities, and Metallic ores crushed and pulverized for testing.

SEWING MACHINES.

We expect soon to be able to supply the market with Wire Lock Stitch Machines having important improvements, enabling them to sew rapidly with the very best shoemakers' waxed thread, making stronger and more durable work than has before been done on the Sewing Machine. We also make the Wire Staple or Metallic Seam Machines, stitching with wire instead of thread, and making a very elastic seam, each stitch being entire in itself. The stitches cannot wear out or break, the leather giving out first.

Hydraulic and Screw **Presses**, Steam and Centrifugal **Pumps**, **Injectors**, **Blowers**, Etc. **Wire Rope** for Elevators, transmission of power and general use. Plans and Machinery for transmitting power long distances. Rubber and Leather **Belting**, Etc. A large variety of second-hand **Pulleys**, **Shafting**, Etc., and new Shafting always on hand. **Steam Engines**, **Boilers**, **Mills**, **Water Wheels**, Wood and Iron Working Machinery, and general Machinery, new and Second-hand. THE FAVORITE FAMILY PAPER.

Boston Home Journal,

— A JOURNAL OF —

Literature, Music, Drama, Fashions and Society News.

Published Every Saturday.

The "HOME JOURNAL" is the favorite Family and Society paper of Boston. Its departments consist of

**Society News, Fashion Notes,
Personal Notes, Music, Drama,
Hotel Notes, Sayings & Doings.**

Among its Contributors are PRES. PAUL CHADBOURNE of Williams College, PROF. C. CARROLL of the New York University, PROF. HIRAM ORCUTT of Tilden Ladies Seminary, and many others of eminent ability. Our **New York and London Letters** are interesting.

IT SHOULD BE KNOWN.

The BOSTON HOME JOURNAL does not and will not boast, as some Sunday papers do, that it has the largest circulation of any paper in Boston, but it can and it does affirm, without fear of contradiction, that it has to-day as cultivated a circle of readers as any paper published in this city. The people who read the HOME JOURNAL are members of households of liberal ideas of living, with means to indulge them; and an advertisement of almost any first-class retail house is likely to result in good to the advertiser, when placed in its columns. Advertisers should bear this in mind, and not be swayed by boastings of vast circulation, but should be satisfied that the circulation of the paper is among the class that would be likely to patronize their establishment.

PURE WHITE LEAD

EVER MADE IN THIS COUNTRY.

Their Mills are under the superintendence of Mr. D. G. BATCHELDER, whose reputation as a Lead Manufacturer has long since been well established throughout New-England and New-York; and his WHITE LEAD stands unrivalled in this country.

The Salem Lead Company's Lead can be found for sale by the first-class Drug, Paint or Hardware dealers throughout New England, and by many in New York, Pennsylvania, and also in the Southern States.

Its uniform Purity and Brilliant Whiteness are fully appreciated wherever it is used, and these qualities in an eminent degree are achieving for it a success and demand hitherto unprecedented in the Paint trade.

This WHITE LEAD, owing to the great care used in the selection of the material from which it is made, and also in the grinding of the same, is said to **wear longer and handsomer**, and to present a **harder surface** to the action of the weather, than most of the Leads now in use.

Its Perfect Purity is Warranted in all cases.

BAKER'S
COCOA,
CHOCOLATE and BROMA.

The house of **WALTER BAKER & CO.** has received the Highest Medals awarded at the Philadelphia Exhibition, 1876; Vienna Exposition, 1873; Paris Exposition, 1867; Crystal Palace Exposition, New York; American Institute, New York; Mechanics' Institute, Boston; Mechanics' Institute, San Francisco; Franklin Institute, Philadelphia; Maryland Institute, Baltimore; Smithsonian Institute, Washington; and at many other Exhibitions for the best

Chocolate, Broma, and Cocoa Preparations.

An analysis made by Baron Liebig, the famous German chemist, shows that Cocoa and Chocolates are greatly superior to tea or coffee in all the properties which produce a healthy state of the body, and consequently of the mind. Coffee and tea are stimulants which often act injuriously; Cocoa and Chocolate are food which produces blood and cellular tissue. In its nutritive constituents, Cocoa resembles beef; as an article of diet it exceeds in value milk and wheaten flour. It contains every ingredient necessary to the growth and sustenance of the body. It is universally recommended by physicians as useful to invalids and persons recovering from disease.

Frequent analysis have been made under the direction of Boards of Health and Sanitary Associations in our large cities, to determine the purity of Chocolate and Cocoa Preparations sold in this country. In every instance the articles manufactured by **WALTER BAKER & CO.** have been reported as entirely pure and free from the admixture of deleterious substances.

These goods are sold by all the principal Grocers throughout the Union.
